Subject: NEWS article October 14, 2008 About Wlodylo Family Construction Project (Please read this e-mail EXTREMELY IMPORTANT)
Files: <none>

Hello Sarah,

I received you e-mail on Saturday October 15, 2008 Stating that you wanted our side of the story for your article on October 20, 2008.

I was not informed nor did I know about any NEWS RELEASES BY THE CITY OF GARDINER until It appeared in the Kennebec Journal on Oct 15, 2008. You did not inform me that you already ran the story On Oct 14, 2008. I had to search for you on the Internet to find it.

Your article SLANDERS the WLODYLO FAMILY AND ESPECIALLY SLANDERS ME

Peter Wlodylo. I think you should have done research to support your story so that it is accurate. I am not asking you to slant the story, I am asking you to be ACCURATE. The facts are these. The problem with the city of Gardiner and the Wlodylo Family has been on going for 5 consecutive years, the Wlodylo family have been suing the city for 3 years, The description of the problem with the Wlodylo construction is not accurate, the engineering firm that you quoted will also have to retract their statements, the city of Gardiner is using the said firm to DESTROY the Wlodylo's Home and the Wlodylo's themselves by supplying the said firm with FALSE information. The said engineering firm did not actually inspect the property, the said engineering report quoted in your article is based on GUESSWORK and misinformation supplied by David P. Cichowski

The people that supplied you the information Jeff Kobrock, David P. Cichowski and city lawyer Erick Stumpfel are the subjects of our lawsuit that is now in the SUPREME COURT. There is a current lawsuit filed against the city by the Wlodylo Family FOR THE SAME EXACT PURPOSE as the city lawsuit that you reported on October 14, 2008.

KJ reporter Betty Adams wrote the story, the story is here <http://kennebecjournal.maintoday.com/news/local/5448111.html>

You will notice that Kobrock says "We felt it necessary to do a careful, independent inspection of the property and were just able to schedule that for a day or two ago," Kobrock said. "We're doing our best."

You will notice that the city is suing us to force us to install a foundation under our home. You will notice that in the Betty Adams story The purpose of suing the city is to install a foundation under our home. Why is the city suing the Wlodylo Family for the exact same thing that the Wlodylo Family is suing the city for,except that the Wlodylo filed their lawsuit first. Jeff

Kobrock's answer to our lawsuit was to sue us for the same exact purpose. I you compare the two news articles you will see that Kobrock's response was to sue us in return for the same thing. I hope that you make that clear to your readers in addition to retracting any false statements. The Wlodylo Family recently

EXPOSED Kobrock for evidence of FRAUD, the link is here <http://www.gardinermaineproblems.com/page5.html>

You need to look at Cichowski EXPOSED to see the real story behind

the permit issue the link is here <http://www.gardinermaineproblems.com/page5.html>

You will see that their are several letters and e-mail concerning

Cichowski, please look at the October 24, letter <http://www.helpsaveourhome.me/LETTER%20REPLY%20TO%20CICHOWSKI%20%20FIXED%20C%20%20%20LETTER%20OF%20OCTOBER%2014%202008.pdf>

That letter DISPELS THE MANY FALSE STATEMENTS that appear in your

article, please do your homework before writing stories. please
e-mail me about any questions about any information that you are
not sure about. Good Luck in your writing and I wish you well.
Please correct the false statements. I am a carpenter by trade and
your information has damaged my ability to make a living.

--

Best regards,

Peter <mailto:peterwlodylo@usadatanet.net>
